# Bibliografi

# Amanah Ilmiah

- ▶ karya harus hasil kerja sendiri
- ▶ jika tidak, sertakan sumbernya

# Bibliografi

- ▶ daftar sumber rujukan
- ▶ teks biasa (.bib)

# Jenis Pustaka

- ▶ @article: artikel jurnal, majalah, atau koran
- ▶ @book: buku dengan penerbit
- ▶ @inproceedings: prosiding konferensi
- ▶ @mastersthesis: tesis
- ▶ @misc: sumber lain

# Jurnal

```
@article{label,  
    author      = "",  
    year        = "",  
    title       = "",  
    journal     = "",  
    %volume     = "",  
    %number     = "",  
    %pages      = "",  
    %month      = "",  
    %note       = ""  
}
```

# Contoh Jurnal

```
@article{greenwade93,  
  author    = "George D. Greenwade",  
  title     = "The {C}omprehensive {TeX} {A}rchive  
              {N}etwork ({CTAN})",  
  year      = "1993",  
  journal   = "TUGBoat",  
  volume    = "14",  
  number    = "3",  
  pages     = "342--351"  
}
```

# Buku

```
@book{label,  
    author      = "",  
    year        = "",  
    title       = "",  
    publisher    = "",  
    %volume     = "",  
    %number     = "",  
    %series     = "",  
    %address    = "",  
    %edition    = "",  
    %month      = "",  
    %note       = ""  
}
```

# Contoh Buku

```
@book{goossens93,  
  author      = "Michel Goossens and Frank Mittelbach  
                and Alexander Samarin",  
  title       = "The {LaTeX} Companion",  
  year        = "1993",  
  publisher    = "Addison-Wesley",  
  address     = "Reading (US-MA)"  
}
```

# Prosiding

```
@inproceedings{label,  
    author      = "",  
    year        = "",  
    title       = "",  
    booktitle   = "",  
    %editor     = "",  
    %volume     = "",  
    %number     = "",  
    %series     = "",  
    %pages      = "",  
    %address    = "",  
    %month      = "",  
    %publisher  = "",  
    %note       = ""  
}
```

# Tesis

```
@mastersthesis{label,  
    author      = "",  
    year        = "",  
    title       = "",  
    school      = "",  
    %type       = "",  
    %address    = "",  
    %month      = "",  
    %note       = ""  
}
```

## Miscellaneous

```
@misc{label,  
  %author    = "",  
  %year      = "",  
  %title     = "",  
  %howpublished = "",  
  %month     = "",  
  %note      = ""  
}
```

# Contoh Halaman Web

```
@misc{wikibooks-latex,  
  author      = "Wikibooks",  
  title       = "{LaTeX}",  
  year        = "2016",  
  howpublished= "\url{http://wikibooks.org/wiki/LaTeX}",  
  note        = "Accessed: 2017-06-14"  
}
```

Bibliografi format BibTeX bisa diunduh dari berbagai sumber.

Gambar 1: Google Scholar.

# Kompilasi

Gunakan metadata `bibliography:` untuk menambahkan *file* .bib.

```
---  
bibliography: ref.bib  
---
```

Lalu, tambahkan opsi berikut pada pandoc untuk memproses sitasi.

```
pandoc ... -F pandoc-citeproc
```

# Sitasi

## Sitasi dalam Teks

@goossens93 menulis buku yang bagus tentang LaTeX. Untuk paket TeX, terdapat pada CTAN [@greenwade93]. Selain itu banyak sumber *\*online\**, salah satunya dari @wikibooks-latex.

Goossens *et al.* (1993) menulis buku yang bagus tentang LaTeX. Untuk paket TeX, terdapat pada CTAN (Greenwade 1993). Selain itu banyak sumber *online*, salah satunya dari Wikibooks (2016).

# Gaya Sitasi

- ▶ Nama-tahun (Harvard)
  - ▶ APA
  - ▶ CSE<sup>1</sup>
- ▶ Nomor (Vancouver)
  - ▶ ACM
  - ▶ IEEE

IPB (2012) mengikuti gaya sitasi nama-tahun dari CSE.

---

<sup>1</sup>Council of Science Editors

# Mengatur Gaya Sitasi

Gunakan metadata `csl:` untuk menambahkan *file* CSL<sup>2</sup>. Untuk gaya sitasi IPB, gunakan *file* `ipb.csl`<sup>3</sup>.

```
---  
csl: ipb.csl  
---
```

---

<sup>2</sup><https://github.com/citation-style-language/styles>

<sup>3</sup><https://gist.github.com/auriza/4b43aaf3d3ef3128aaa0aea990ab0628>

# Singkatan

# Singkatan

Biasanya nama jurnal dan prosiding disingkat untuk meringkas penulisan daftar pustaka.

Gunakan metadata `citation-abbreviations:` untuk menambahkan *file* yang berisi daftar singkatan.

```
---
```

```
citation-abbreviations: abbr.json
```

```
---
```

## Contoh

Berikut contoh isi *file* singkatan tersebut dalam format JSON.

```
{
  "default": {
    "container-title": {
      "Journal of Intelligent...": "J Intell Robot Syst",
      "Procedia Computer Science": "Procedia Comput Sci",
      "International Conferen...": "Int Conf Syst Sci Eng"
    },
    "publisher": {
      "IPB Press": "IPB Pr"
    }
  }
}
```
